

CORPORATE TUTOR DAYS

AGAPE YOUTH & FAMILY CENTER

Corporate Tutor Days can be flexible depending on what your goals are for your team, but we typically have groups participate in homework hour, enrichment time, and then serve dinner to our students so they can be a part of every aspect of our after school programming in just one day.

Homework hour is from 3:15-4:15 and involves working with students one-on-one to help them complete and comprehend their assigned homework for the day. After homework hour, students have enrichment time in which they engage in a hands-on activity that they might not get to experience in their neighborhood or while at school. This can be anything from karate, gymnastics, or team sports in our gymnasium, to a science or art project in our STEAM room, or even having you all do a career-day style activity where you would get to tell the students about what you do and how you have been able to get to where you are.

From enrichment time, your group can move into our kitchen to prepare the food you have brought for the day to be served to one of our three schools at our facility in the afternoon. I have attached our suggest dinner menu for this semester to give you a better idea of what kind of food works well with our students and how much (or really how little) preparation is required to be successful during this part of our programming. Once dinner is served we encourage volunteers to sit down and share the meal with our students. After students eat, they have some free time in the gym and then we take them home for the evening.

Corporate Tutor Days generally last between 3:00 and 6:00 pm. You are able to do so much with your group in such a short amount of time, it is really wonderful. There's room for your group to enjoy all the aspects of our after school program. Also, if anyone on your team has a special skill and is confident in leading an enrichment activity that we do not already have scheduled we can definitely set that up as well.

Essentially, if you all would like to just plug in to what we already have scheduled you can do that, or if you want to take more ownership over the day we can set that up as well.
